

King's House School

School's Vision

We aim to be the school of first choice for parents seeking a prep-school education for boys in this area.

School's Ethos

King's House is a friendly, caring and supportive school. We have a strong sense of community both within the school and with our parents but we are also keen to play a role in the local and global community and to develop our pupils' sense of awareness of the world around them.

King's House is a lively, busy and happy school and we aim to give each child a broad academic and balanced education. We provide an environment in which the children feel secure and are able to flourish; offering opportunities to take part and develop in all areas, so that the needs of each individual are catered for.

King's House is non-selective at our two main entry points, Nursery and Reception, and this means we have a range of pupils and abilities.

We believe that boys benefit from staying in the prep environment until they are 13 years old before moving on. Their final two years here allow them to grow up and develop a sense of responsibility, taking on roles around the school. The boys are well-prepared for the transition to their senior schools.

King's House is proud of its traditions and history. Its principles and standards are founded on Christian values although the school is not aligned to any particular religion, and welcomes pupils of all religions and backgrounds.

Strategic Assumptions

We are making the following assumptions:

- We will remain a boys only school with a co-educational Nursery
- We will remain non-selective at the younger ages and will therefore continue to be a mixed ability school
- We will continue to prepare boys for 13+ entry as we believe this is the best age for transition onto senior school
- We will remain a prep school independent of any senior school and see one of our strengths as the breadth of schools to which our pupils head off

Strategic Aims

1. To offer a high quality, broad and balanced education, which challenges and encourages our pupils to achieve their potential
2. To provide a supportive environment where the pupils feel cared for and valued
3. To attract and retain pupils who will benefit from the education that we offer here
4. To attract, retain and develop teaching and non-teaching staff of the highest calibre
5. To build and maintain facilities which enhance the education and care offered by the school.
6. To ensure that the school continues to be in a strong position financially, is efficiently run and is able to deliver on its aims
7. To enhance the reputation of King's House School and to build stronger links with the wider community, including parents and alumni
