

KING'S HOUSE SCHOOL
RICHMOND

**PERSONAL, SOCIAL, HEALTH
AND ECONOMIC EDUCATION
(PSHEE) POLICY INCLUDING
ANNEX A (PUPIL VOICE) AND
ANNEX B (SMSC)**

Member of staff responsible:

Head of Pastoral Care

Date of policy review:

December 2018

Date of next review:

March 2020

Approved by Governors:

December 2018

This policy applies to the whole school, including the EYFS.

RATIONALE

“If you could wish one thing for a child when they leave school, what would that be?” Most parents, as well as most teachers, would say that they would wish for a child such things as self-reliance, happiness, the ability to make choices, self-discipline and confidence. In other words, a vast majority of adults would not limit their expectations of school to academic achievement.

Thus the 1988 Education Reform Act puts a requirement on schools to provide a broad balanced curriculum which “promotes the spiritual, cultural, mental and physical development of pupils at the school and of society and prepares the pupils for the opportunities responsibilities and experiences of adult life”. The 2010 Equality Act asks schools to show respect to others.

Education is far from just being a transferring of facts to children. The broadest aim of education is that of helping a child to think for themselves and make well-informed choices, decisions and value judgements.

Personal, Social, Health and Economic Education helps to achieve these aims.

THE LEGAL REQUIREMENTS

Personal, Social, Health and Economic Education (PSHEE)

There are no legal requirements for the delivery of PSHEE, but the National Curriculum provides non-statutory guidelines for all key stages. Citizenship Education is now incorporated within PSHEE and at King’s House within the PSHEE schemes of work.

Although PSHEE and Citizenship are not required elements of independent schools curricula, King’s House School in general follows the National Curriculum guidelines and adheres to EYFS guidelines.

THE SCOPE OF PSHEE

PSHEE refers to all aspects of school life – the thinking, planning, teaching and organisation which are designed to contribute to the process of growing up, getting on with other people, formation of values, and preparation of the child for responsibility in adult life.

This will involve helping pupils to understand:

- understanding themselves
- their behaviour
- health and development
- our society
- school environment
- learning skills
- making decisions and moral judgements

In PSHEE there are facts to be known, concepts to be understood, skills to be acquired, values and attitudes to be encouraged.

We offer wide-ranging careers advice and opportunities to learn about a wide range of careers which are not gender specific or taught in segregated sessions. In our co-educational Nursery Department, we offer non-gender-specific role-play opportunities and visits from professional people in the community. Although we are a boys-only prep school in the Junior and Senior Departments, we ensure that our careers advice is open and is not restricted to only those considered to be traditional male careers.

DELIVERY OF THE CURRICULUM

Where does PSHEE take place?

PSHEE happens in all sorts of ways and in all sorts of places – in and out of the classroom, at home and in all areas the curriculum, open and hidden.

THE HIDDEN CURRICULUM

This refers to the unspoken areas of a school curriculum which inculcate the values of a school, often as effectively as the spoken and written curriculum. These values tell a pupil a great deal about the attitude of the school to the pupils, to education and what an individual's place and worth is within the school community. The hidden curriculum may be found in many areas such as, but not limited to, the following:

- layout of building
- classroom layout
- handling of discipline issues
- methods of correction – of work and of behaviour
- circle time
- interaction between staff and pupils
- interaction between staff and staff
- teaching and learning styles
- trips out
- activity weeks

The hidden curriculum is the “root” of the PSHEE tree – like tree roots they are not visible, but they underpin the more formal and visible PSHEE programme (the tree's branches) and as such can determine the success of the delivery of the formal PSHEE programme.

SOCIAL, MORAL, SPIRITUAL AND CULTURAL EDUCATION (SMSC)

The social, moral, spiritual and cultural values of each child are promoted within the subject of PSHEE. This is highlighted in the PSHEE planning and other schemes of work across the curriculum. This is especially true in RS which promotes SMSC as a range of faiths are learnt about. SMSC is also

evident in most assemblies. A log of assemblies is kept which highlights areas of SMSC that are covered.

Pupil voice also plays a key part in the PSHEE curriculum. See Annex A for further details.

Attached at Annex B is the school's SMSC statement which includes how the school promotes Fundamental British Values.

EYFS (CATERPILLAR, BUTTERFLIES & RECEPTION)

In the EYFS, PSHEE is an integral part of the curriculum. Personal, Social and Emotional Development is one of the three prime areas of the EYFS curriculum. From the moment children arrive in the Nursery Department or Reception, they are on a rapid learning course as regards personal, social and emotional development which is integral to every area of their experiences, both in and out of the classroom.

In the Nursery Department we celebrate kindness, sharing and helping others by;

- Talking about positive behaviour during Circle times
- Placing pictures and messages on 'The Tree of Good News'. Sharing good news with parents and encouraging children to bring in items for The Tree of Good News from home.
- Certificates and stickers
- Taking home 'Listening bear'
- Nominating helpers at snack time.
- Holding events to raise money for local charities and Rwanda Aid.

JUNIOR DEPARTMENT

In the Junior Department, PSHEE mostly takes place as an integral part of the curriculum. From the moment the boys arrive in Reception, they are on a rapid learning course as regards personal, emotional and social development, which is integral to every area of their experiences, both in and out of the classroom.

In Reception and Key Stage 1, boys have weekly PSHEE lessons usually taught through Circle Time session. The syllabus is well covered by other means within the teaching day.

In Key Stage 2 (of which only Year 3 is in the Junior Department) there is one half hour lesson of PSHEE a week. In addition many aspects of the syllabus are covered within the broader curriculum as in Key Stage 1.

There are several areas of school life unique to the Junior Department which especially enhance the PSHEE curriculum:

Circle Time: All classes have regular Circle Time lessons which cover various topics and ideas.

Golden Rules/Golden Time: Golden Rules are displayed in the Junior Department for boys to follow every day. Boys following the Golden Rules are rewarded with special stickers. Years 1 to 3 have Golden Time sessions in which boys who have earned Golden Time have a free choice of activity. Minutes can be lost for bad behaviour, but the emphasis is on the fact that Golden Time is a reward for positive contributions from all boys during the week. In Reception, the boys follow the Golden Rules and are rewarded with stickers and star charts.

Gold Book: Boys who have work hard or have achieved something special are recorded in the Gold Book. Their names are read out in Friday's assembly, where they stand up and are applauded. Names are also put in the weekly newsletter for parents to see. The achievements are not necessarily academic, but also for social skills, effort and helpfulness.

Secret Letters: Teachers secretly choose boys who have worked hard or behaved well each week to receive a secret letter through the post from the head of department. The letter is addressed to the boy himself and congratulates him on his achievements.

Cross Curricular

All subject areas of the curriculum have a part to play in the delivery of PSHEE. Wherever a child is taught social skills, planning, evaluation, health, self-awareness, awareness of the wider world, self-discipline, social and moral responsibility, self-esteem and values, PSHEE is being taught.

SENIOR DEPARTMENT

Cross- curricular

The cross curricular application of PSHEE follows on from the Junior department, where there is a continued promotion of the above.

As far as the formal interaction with PSHEE lessons is concerned the main subjects which cross over and compliment PSHEE are Religious Studies, Science, Geography, English, PE & Games and Maths where they will primarily discuss the economic aspect of PSHEE. (see Resources for the Curriculum for detail of this.)

There is also a peer mentoring system in place which involves members of Year 8 having a buddy in Year 4 to mentor. These boys are assigned to buddies in their own houses in order to give them common ground. Various activities take place throughout the year to encourage a bond that gives the older boys a sense of responsibility and the younger boys feel more welcome and safer in the playground. Other events include assemblies, where teachers or outside agencies will discuss issues related to PSHEE or form assemblies where each form will perform a yearly assembly, often on a current or social topic. The children also take part in charitable work, with local charities such as Starlight or international charities being supported. The main international charity supported is Rwanda aid, where we have helped to build and continue to support King's House School, Cyato.

The formal curriculum overlaps with PSHEE to ensure complete and fully adequate coverage of all topics.

THE FORMAL CURRICULUM

Personal, Social, Health and Economic Education Lessons take place in form groups, once a week, for half an hour. They are run by the Form Teacher (see Curriculum overview for subjects and topics)

As well as “plugging the gaps” where the PSHEE curriculum is not delivered in any other context, these provide a place and a time for pupils to discuss issues and formalise ideas. The topics covered are listed below in the syllabus.

These sessions can also be used to deal with issues that have arisen, planning projects which the class are involved in, such as charity initiatives or class assemblies, discussion of topical issues and current events as well as delivering the formal PSHEE curriculum.

EYFS (CATERPILLAR, BUTTERFLIES & RECEPTION)

In the Early Years PSHEE is an integral part of the EYFS curriculum. Personal, Social and Emotional Development is one of the three prime areas that underpin all the learning that takes place. From the moment children arrive in the Nursery Department or Reception, they are on a rapid learning course as regards personal, social and emotional development which is integral to every area of their experiences, both in and out of the classroom. We follow the belief that valuing a child as an individual, having positive relationships and an enabling environment allows learning and development. With termly intakes of children we ensure they are supported in developing the following skills during their time in Nursery by working closely with families and embedding these behaviours throughout the sessions.

<u>Self- confidence and Self-awareness</u>	<u>Making Relationships</u>	<u>Managing Feelings and Behaviour</u>
<ul style="list-style-type: none"> • Separate from carer- feel safe, secure and show a sense of trust. This is supported by the child’s key carer. • Express own preferences and interests. • Develop the confidence to ask adults for help when needed. • Select and choose activities and resources with help. • Have the confidence to talk to other children during play and in circle times-show and tell, in role play. • Celebrate the things we are good at -The Tree of Good News • Begin to understand we all have different talents. • Welcome praise- stickers, warm fuzzy jar, taking home Butterfly pup and Bunny. • Enjoy responsibility - snack time helpers • Be sensitive to others needs and feelings. • How do we help each other- caring for our environment, People Who Help Us topic, supporting local charities and Rwanda Aid. 	<ul style="list-style-type: none"> • Provide activities and support to promote making friends, listening skills, sharing and turn taking. • Begin to engage in cooperate play with other children-role play • Initiate play with other -Circle times and stories about including others. • Take turns and share resources. (The large sand timers are used for taking turns.) • Initiate conversations and take account of what others say. • Working as a team- tidy up time, group activities including problem solving. 	<ul style="list-style-type: none"> • Can express their own feelings-emotions topics and circle times. • Respond to the feelings and wishes of others. • Encourage kindness and concern for others. • Show an understanding of the boundaries and routines- Use the visual timetable, Nursery Golden rules, positive behaviour displays. • Take turns and share resources- large sand timers are used for taking turns • Be aware that some actions and words can hurt others- Discussed in circle times and I:I. • Begin to negotiate and solve problems without the support of an adult. • Accept changes –transitions between classes and to Reception. Meet the Teachers booklets, visits to JD, staff swaps.

JUNIOR DEPARTMENT (INCORPORATING EYFS IN RECEPTION)

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Reception	Starting school <i>School routines, making friends, expectations of behaviour</i>	Golden Rules <i>Do be honest Do be kind Do be helpful Do work hard Do listen Do look after property Do be gentle</i>	All about me <i>Discuss things you like and dislike, families, friends and school</i>	Friendship <i>What makes a good friend? How can we keep our friends? Importance of sharing</i>	Team work <i>Parachute games</i>	Moving on <i>Transition to Year One How have we grown?</i>
Year One	New beginnings <i>Things to look forward to, expectations in Year One</i>	People who help us <i>Discuss roles of important people in the community e.g. fire service, police etc Invite visitors into school</i>	Road safety <i>Looking out for danger on the roads, what do different signs mean? Stranger danger, wearing a seatbelt etc</i>	Being part of a community <i>Looking after where we live, how and why should we do this?</i>	Healthy eating <i>Making choices for a healthy lifestyle</i>	Changes <i>Moving on and transition to Year Two</i>
Year Two	Good Relationships <i>With parents, teachers and friends. Talk about having respect for these people</i>	Responsibility <i>Discuss responsibilities boys have at home, school and in the community</i>	To give is to receive <i>Helping others The importance of charity</i>	Say no to bullying <i>What should we do if we are being bullied or see someone being bullied?</i>	Peer pressure <i>How to say no and to be yourself</i>	Feelings <i>Discuss our own feelings and those of other people</i>

	Autumn	Spring	Summer
Year Three Lessons are incorporated with RS. One half term RS, one term PSHEE.	Going for Goals <i>Setting personal targets to achieve a goal</i> Changes and family, belonging and friendship	Brain/Growth Mindset	Animal Rights

SENIOR DEPARTMENT

	AUTUMN CITIZENSHIP & MEMBERSHIP OF A COMMUNITY	SPRING RELATIONSHIPS, SELF ESTEEM AND DEALING WITH CONFLICT	SUMMER HEALTH AND SAFETY
YEAR 4	<p>The family: responsibilities / duties and rights at home. families from different cultures different kinds of family</p> <p>The school class: rules / effects of one's behaviour on others / respect for others.</p> <p>A module on internet Safety</p>	<p>Self Esteem what makes you happy/ sad / afraid likes and dislikes what are you good at</p> <p>Relationships Friendship Strangers</p> <p>Conflict Saying no/teasing and other forms of unkindness – how can they be dealt with</p>	<p>Health personal hygiene teeth</p> <p>Safety at home road safety including on the bike emergency aid</p>
YEAR 5	<p>The school community and the role of the individual within it. school rules. behaviour at school and also the wider environment british values in a community understanding the consequences of anti-social behaviour. respect for individual rights responsibility for the school environment – vandalism, rubbish, tidiness. The need to co-operate and communicate in class and school</p> <p>Internet Safety module</p>	<p>Self esteem: strengths / goals</p> <p>Relationships: Friendship: difference between friends and family Feelings: Recognise other people's feelings and be able to put oneself in another's shoes</p> <p>Coping with Anger/Conflict Dealing with peer pressure/working together</p>	<p>Health exercise healthy eating sun exposure</p> <p>Safety potential dangers and taking appropriate risks Personal safety school rules</p> <p>Includes ideas for revision session for exams</p>

<p>YEAR 6</p>	<p>The school and the local community Local government responsibilities as members of the local community, care for the local environment, understand how the local community functions – schools, roads, rubbish collection etc, magistrates to know about democracy at a local level , role of charities and voluntary work in the community. Internet safety module Interview practice</p>	<p>Self esteem: new challenges /competition / heroes doing things for others Relationships: Actions & consequences, loyalty to friends, working as a team, relationships with the opposite sex. Differences - cultural/ethnic / racial/ religious / gender/disability Coping with Conflict: causes bullying consequences of e.g. racism, bullying stereotypes Dealing with stress – pre-tests Planning a simple budget</p>	<p>Health Alcohol/smoking mental health/stress puberty Safety Rail/beach/ river / canals Sun dangers</p>
<p>YEAR 7</p>	<p>National government democracy at national level – voting systems the function & structure of Parliament how laws are made and enforced how and why the government taxes us political parties Regional Assemblies diversity of national, regional, religious and ethnic identities within the UK and terrorism introduction Internet safety module</p>	<p>Self esteem: identity strengths and weaknesses/ setting goals/ time management Relationships : differences / friendship - friends and family, empathising actions & consequences teenage brain changing through puberty and how that affects friendships Role models and how they are seen Coping with Conflict Stereotyping, bullying etc. assertiveness. Thinking about employment in future To understand what is required for certain jobs, to see how much certain jobs pay</p>	<p>Health puberty /mental health / work, leisure / exercise effect of the media on the things listed above smoking, alcohol, drugs Safety River safety recognise risk resist pressure</p>

<p>YEAR 8</p>	<p>Citizenship of the global community European community – function, structure etc. United Nations – declaration of Human Rights / Unicef – rights of the child The Commonwealth Other global organisations - Relief and Aid organisations / Human rights organisations e.g. Amnesty International Radicalisation Personal Citizenship To understand that advertising influences choices and values Understanding the basic elements of personal finance To be aware of the different ways to become involved in the local community, make their opinion heard and how to effect change</p>	<p>Self esteem: self-worth /choices / strengths/weaknesses / emotions -loss/ change / /time management Relationships: communication friendship/family / puberty, negotiate within relationships peer pressure/empathy More detailed discussion on relationships with the opposite sex Coping with Conflict (including a module on internet safety): : causes / conflict in media / anger management / bullying (including phone/text/e-mail) Relationships with money – spending/managing it</p>	<p>Health Alcohol drugs STD's * Safety Personal safety/sharing problems/making the right choices Assertiveness Contraception* first aid* <i>*taught by an outside agency</i> Careers Inspiring futures career programme – computer based programme designed to showcase which jobs are suitable for their talents. Visits from outside agencies about prospective jobs*</p>
----------------------	--	---	--

The PSHEE syllabus in the Senior Department also encompasses:

Well-being plans – **tracks strengths, achievements, friendships, worries and targets**

Team building games – **designed to aid cooperation and communication**

Philosophy for children – **improves emotional awareness and thinking skills**

Thunks – encourages debate through questions

Information on these topics can be found in the PSHEE half termly schemes of work

ANNEX A

THE PUPIL VOICE AT KING'S HOUSE

As a school King's House is keen to hear and listens to the views of its pupils. The school believes that it is good that children have the confidence to speak, discuss and give their opinions from a young age. Any discussions should always be carried out in an age-appropriate way. One of the ISI inspection (2016) recommendations was to improve opportunities for pupils to have roles of responsibility across the school. We have endeavoured to meet this requirement with the addition of many things mentioned in this Annex.

The Form Group – The main pastoral care grouping at King's House is the form group. Form teachers see their pupils on at least a daily basis and from Reception to Year 4, they deliver the majority of the curriculum and the boys spend most of their time with them. Building on this relationship is key to developing pupil voice. The form group should encourage a purposeful environment where respectful engagement with one another is promoted. It should enable form teachers to get to know their pupils and to tailor their advice and support appropriately. It should also foster a sense of inclusivity where issues pertinent to the age of the children can be discussed. Forms have also given roles to pupils (such as credit card monitor), within their forms, particularly in the lower years, to enhance pupil responsibility. Forms are also expected to perform a class assembly. The ideas are often from the boys themselves and they create assemblies, including powerpoints and finding appropriate video material, to support them. Form time and PSHEE lessons in the SD are an opportunity for pupils to discuss their views, as are Circle Time and PHSE lessons in the JD.

Pupil Groups - The school has a food council towards which pupils contribute ideas, and an Eco Team in the SD, which also provides pupils with a voice on these key areas. The Food council has been key in enforcing changes in 2017 including a change of rota to limit queueing and ensure all years have enough time to finish their lunch. Food council members have been part of pupil run assemblies, as have other groups such as charity monitors and individual members of pupil run clubs. Often when selecting charities to support pupils are consulted and involved in the process. This may be done in assembly in the JD or by the Charity Monitors in the SD. In the JD when a work scrutiny is taking place, pupils will be asked to talk about their work.

Senior Pupils - The boys in Year 8 take on responsibilities around the school and will lead various activities such as houses and sports teams. Prefects are given responsibilities and encouraged to discuss their ideas. All other boys are subject monitors. All Year 8 boys act as mentors too to the boys in Year 4 and this encourages concerns to be raised.

Staff – Staff at King's House are expected to listen to pupils and take seriously, and act appropriately on any concerns that they may have. All staff are given training in safeguarding as part of their induction and this is refreshed every three years in line with local guidance.

Staff have an open door policy and pupils are regularly informed that if they have a concern they can and should discuss it with a member of staff, be that their form teacher, one of the pastoral team or any member of staff they feel comfortable talking to. If the concern were of a safeguarding nature, all staff are trained in this area and would follow the school's procedures.

Staff also encourage pupils to develop their own ideas through their planning and teaching. The SD has a debating club which builds on the discursive work carried out in the Religious Studies syllabus in Years 7 and 8. Where issues are raised they are discussed at staff meetings and SMT meetings as appropriate.

Pupil Survey – The school conducted an externally run survey of its pupils in 2016, after our ISI inspection and now regularly surveys boys in Year 4 about their transition, as well as pupils who have just left about their experiences. The well-being plans also provide feedback on pupil views.

Pupil run clubs – Pupils from all year groups have the opportunity to create and run their own clubs with staff supervision. Examples of these are James Bond club, Phone design club, STEM club (Science, Technology, Engineering, Maths) and Table Tennis club.

Digital Leaders – Pupils from years 5 – 8 have the opportunity to become digital leaders. This involves completing computer based modules that enables them to be better cyber citizens. Leaders feed back to their forms on what they have learnt.

A pupil voice folder is available to show evidence of pupil voice.

ANNEX B

SMSC STATEMENT INCLUDING PROMOTING FUNDAMENTAL BRITISH VALUES

References

Department for Education Advice November 2013 – Improving the spiritual, moral, social and cultural (SMSC) development of pupils

Department for Education Advice November 2014 – Improving the spiritual, moral, social and cultural (SMSC) development of pupils – supplementary information

Independent Schools Regulations – amended Jan 2015

Overarching Statement

King's House School actively promotes the fundamental British values of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs.

At King's House School we recognise that the development of pupils, spiritually, morally, socially and culturally, plays a significant part in their ability to learn and achieve. We aim to provide an education that allows pupils the opportunity to explore and develop their own values and beliefs, spiritual awareness, standards of behaviour, a positive, caring attitude towards other people, an understanding of their social and cultural traditions and an appreciation of the diversity and richness of the cultures.

Pupils should learn to differentiate between right and wrong in as far as their actions affect other people. They will be encouraged to value themselves and others. Pupils should understand the need for rules and the need to abide by rules for the good of everyone. School and classroom rules should reflect, reiterate, promote and reward acceptable behaviour and provide opportunities to celebrate pupils' work and achievements. The school's Pupil Behaviour Policy and Code of Conduct support these aims.

SMSC will take place across all curriculum areas and opportunities for this will be planned when possible, through activities that encourage pupils to recognise the spiritual dimension of their learning, reflect on the significance of what they are learning, and to recognise the need for perseverance when encountering challenges.

SMSC is also apparent in activities outside the classroom. Opportunities such as assemblies allow the pupils to be educated in fundamental British values and outings to, amongst other venues, places of worship, instill a sense of respect for the beliefs and views of others.

Curriculum

As has been said SMSC is present across the school and its curriculum, and not the responsibility of one subject area to deliver. Different subjects support SMSC in different ways.

SMSC in English

Through their studies of Literacy when they are younger, and English when they are older, pupils are encouraged to read widely, learn about life in different parts of the world and the UK, and to discuss views and ideas put forward. The discussion of ideas is always built on the concept of freedom of expression and of encouraging pupils to respect and listen to the ideas of others, even if they disagree with them. Pupils are encouraged to make points clearly and articulately but also bearing in mind the views of others.

During their time at the school, pupils will study texts which will consider areas such as prejudice and intolerance, and looking at historical events like World War 2 and the use of concentration camps. All this encourages them to think carefully about their own situation and the values of the society they live in.

SMSC in Maths

Mathematics offers the opportunity for pupils to develop deeper thinking and to begin to question the way the world works and how the subject relates to the world around them. Working together is a fundamental part of Maths. Pupils are actively encouraged to discuss with their peers in various problem solving activities, allowing them the opportunity to think creatively, discuss, explain and present ideas. This also means they develop their Mathematical reasoning skills by communicating and explaining concepts to each other. They are encouraged to be supportive and to appreciate that everybody learns at a different pace to each other. They are also given opportunities to peer and self-reflect on their learning by giving positive and constructive feedback on each other's work, being sensitive to each other's feelings. Mathematics is a global language and our pupils learn to appreciate the historical and geographical aspect of the subject. For example they learn about Babylonian and Egyptian Maths and Roman numerals, and they learn about conversion rates of currencies and other conversions such as Celsius and Fahrenheit.

Learning about money and how an understanding of Mathematics can help in financial life is also a part of this subject area. This helps pupils develop a sense of responsibility.

SMSC in Science

Science teaching offers children many opportunities to examine some of the fundamental questions in life, for example, the evolution of living things and how the world was created. Through many of the amazing processes that affect living things, boys are able to develop a sense of awe and wonder regarding the nature of the world. Science raises many moral and social questions. Through the teaching of science, pupils have the opportunity to discuss the effects of smoking, drugs and disease. They are given opportunities to reflect on the way in which people care for the planet and how science can contribute to the way in which we manage the earth's resources. Science teaches children about the reasons why living things are different, by developing their knowledge and understanding of physical and environmental factors, thus promoting respect for others. Through scientific experiments, pupils are provided with opportunities to consider the impact of their actions

on others, analysing risks and evaluating ethical issues regarding scientific research, particularly in relatively new areas of investigation such as genetics.

SMSC in the History

The nature of the subject lends itself to discussions, debates and study topics where core values and attitudes are discussed. Concepts of justice, compassion, wisdom and fair-dealing are commonly discussed and highlighted. Qualities of kingship, leadership, and team skills are also dealt with. The concept of a 'hero' in History also leads to some interesting question and answer sessions re cultural and social differences. Loyalty to institutions and ideas beyond immediate family are also dealt with in History.

SMSC in Geography

British Values are at the core of much of the Year 7 and 8 geography topics. These include the study of rivers and coasts, weather and climate, economic activity and increasingly with the new CE syllabus transport and industry. Locational knowledge and map skills also include a solid understanding of a variety of British places some of which include basic historical facts. Most lessons throughout the school have elements of spiritual, moral, social and cultural development through the use of websites, BBC news round, weekly newspapers and links to PSHE lessons.

SMSC in RS

Although King's House is a school whose values are based on Christian principle, the studying of Religious Studies is aimed at building up the children's understanding not only of Christianity but also of the other main world faiths. This runs through from Reception, where although the children do not study RS as a discreet subject they learn about Divali, the Hindu festival of light, through to Year 8 where a key component of the Common Entrance syllabus is the study of World Religions. All main world religions are studied during their time at the school – Buddhism, Christianity, Islam, Judaism and Sikhism. During their time in the SD the pupils are taken on visits to places of worship for different religions.

On top of this, Religious Studies is a subject which promotes discussion and exchange of ideas and encourages the children to think about their role in the world and right and wrong.

SMSC in PSHEE

PSHEE provides concrete evidence of the school's provision in promoting pupils' behaviour and safety and their SMSC development. Provision is evident within our schemes of work and can be seen by the highlighting of all the SMSC aspects covered in our planning. This is achieved through teaching children to develop and maintain relationships, lead healthy lifestyles, develop personal identity, appreciate diversity and manage risk, in conjunction with many other aspects.

SMSC in Latin

There are many opportunities in Latin to focus on spiritual, moral, social and cultural aspects. Roman life and history are a big part of the Common Entrance syllabus and the following are a range of topics in which SMSC is covered:

Spiritual

- Death and burial: Roman beliefs about life after death
- State worship and Roman/Greek mythology
- Superstition

Social

- The town of Pompeii
- The forum and business
- Baths

Moral

- Theatre: themes in tragedy
- Slaves and freedmen
- Gladiatorial shows
- Education

Cultural

- The house and family
- Daily life
- Theatre
- Education

SMSC in French

In French the children not only learn the language but also learn about different French speaking cultures and societies around the world. The boys look at both the differences and similarities between our culture and society here in Britain and these countries from around the world. This might include topics such as school life, daily routine, food and holidays and festivals. Religious festivals such as Christmas, Easter and Epiphany are also covered in the scheme of work. The Tricolore Total text books that we use also embrace multiculturalism and help the boys learn about various French speaking countries from Martinique in the Caribbean to Senegal in West Africa. In the French I classroom there is a permanent display highlighting numerous French speaking countries around the world. This is all designed to encourage respect of the ideas and cultures of other people.

SMSC in DT

SMSC is promoted in Design and Technology in a number of ways at Kings House School. Pupils are encouraged to work independently and in groups where appropriate. They are encouraged to develop their thinking skills, and explore the wider world around them. Existing products are often analysed and boys are taught how to reflect upon what they find, with an open mind in order to inspire their design ideas and creativity is encouraged. In addition to this, materials used in Design and Technology lessons are often sourced sustainably and the boys are made aware of this, and what it means to the world we live in. Some projects are also based on real life problems that encompass the very emphasis of SMSC, such as the Sustainable Packaging project taught in year 7 where boys are faced with the dilemma of packaging an Easter egg, and the cycle safety project currently taught to year 6 where boys are designing a product that attempts to reduce the danger to cyclists travelling at night.

SMSC in Drama

A huge amount of human communication is carried out non-verbally. Drama aids the development of key skills such as the imaginative enjoyment of the pupil's intellectual, emotional and physical capacities. This enables each pupil to embrace new perceptions and new understanding. Drama aids concentration, confidence and co-operation right across the curriculum. Spiritual education is at the height of importance within the Drama department. The premise of Drama is to inspire pupils; to develop confidence; and to develop their understanding of themselves/others. All schemes of work are designed to develop spiritual, moral, social and cultural development. Pupils develop the skills to understand other viewpoints, to develop and sustain arguments and to view situations from a variety of perspectives. The physical aspect of drama will assist a pupil's non-verbal expression. Elements such as place, time and perceptions of relationships are cultivated through drama. A pupil's spatial awareness is also developed. Drama is a co-operative activity. It allows demanding pupils to understand the effect of their behaviour on other pupils. It also provides a valuable experience in working with others in order to achieve specific goals. Drama activities allow pupils to value the importance of taking turns and listening to others. Drama allows pupils to develop their key skills in areas such as communication, working with others and problem solving. Another important aspect of drama is the opportunity to explore choice and the consequences of choice. It also explores the nature and types of conflict and the effect of conflict on others. It gives the opportunity for self-expression and self-realisation.

SMSC in Art

Art is taught from earliest stages of King's House education and aims to enhance the creative and aesthetic skills of the pupils. As part of the curriculum they are exposed to art from across the world and encouraged to learn to be critical but also to learn from what they see. Providing suitable stimulus for their work allows the pupils to understand the world can be seen from different perspectives and their tolerance of the views others.

SMSC in Music

Music is taught as a subject from the start of a pupil's education at King's House. Pupils are encouraged to sing and play instruments, and are given opportunities to perform from their early years upwards. Performance is key to building their self-confidence and their self-esteem. In Music the pupils are also taught to listen to music from around the world and to appreciate what it offers.

This all promotes an understanding of the need to respect music and other ideas from different cultures.

SMSC in the Computing Curriculum

The Department aims to promote spiritual, moral, social and cultural development in a range of topic areas, and learning methods are often creative, collaborative and reflective (involving written or verbal evaluations). In theory work, pupils' reasoning skills are tested with challenging questions which encourage them to think about explanations and consequences.

Computing teaches pupils how to communicate effectively and safely, thereby promoting the sharing of views and ideas. Pupils are able to apply their Computing skills and knowledge to the wider curriculum and acknowledge links between subjects. Pupils are given many opportunities for guided internet research, and the ease of access to information promotes enjoyment of learning. The E-Safety content of the curriculum includes guidance on how to behave online, encourages pupils to be respectful of other people, and gives them confidence to deal with cyber bullying or any other concerns they may have.

The Computing curriculum provides scope for pupils to be creative and a number of artistic topics are included at regular intervals and more scientific-based topics such as programming allow pupils to be creative by extending their ideas and exploring alternative methods. They are made aware of the Digital Divide and therefore learn to appreciate the different cultural, spiritual and religious views towards the use of digital technology.

Various Computing laws are studied, such as the Data Protection Act and pupils are taught to respect intellectual property, understand “plagiarism” and acknowledge sources. They are also taught to be critical of what they read and understand bias.

SMSC in PE & Games

There are a huge amount of opportunities for pupils to develop their SMSC understanding through PE and Games:

Spiritual

- Explore, creativity through gymnastic routines,
- Creating new games to develop their own learning.
- Opportunities to assess both themselves as well as their peers
- Encouraging discovery learning to allow pupils to develop their own thoughts, ideas and concerns.
- A staff wide approach to communicating to boys about their development to help them think deeper about their own learning.

Moral

- Promote fair play and team work above all else
- Always encourage good sportsmanship
- Promote trust with peers through teamwork
- Rewarding good behaviour

Social

- Creating a sense of community and encouraging pupils to help their peers to develop as well as themselves
- Respecting and understanding differing personalities within a team

- Rule of 3 coaching to encourage more social interaction between pupils to problem solve (“Rule of 3” – Step 1. give the group a chance to rectify errors within games. Step 2. Stop the game and allow boys to talk about how to improve. Step 3. Teacher intervention)
- Use of Sports Leaders (Captains of sports, sport monitors etc)

Culture

- Respecting and understanding cultural differences within a team environment
- Use of assemblies to promote high profile figures who promote cultural understanding

Early Years Foundation Stage

SMSC education is embedded in the Early Years curriculum. When children enter the Nursery we place a huge focus on the three prime areas, especially Personal Social and Emotional Development and Communication and Language. We use play opportunities and circle times to teach the children to share, take turns and be kind and courteous to each other. We listen, observe and value individual children’s interests and opinions. These skills are built on across the three years of EYFS at King’s House.

The EYFS curriculum allows the children to explore, investigate and reflect on their own learning. They are also encouraged to work together and listen and consider other peoples’ views and opinions. The children are taught to show care and consideration for their environment and resources. They raise money for local charities and the Rwanda project, helping them to appreciate the needs of others.

We celebrate and value other cultures and religions. Parents are invited into the setting to share special family celebrations relating to their own culture. Celebrations include; St George’s Day, Australia day, Diwali and Chinese New Year.

Evidence of SMSC and Fundamental British Values at King’s House School

Evidence of SMSC and FBV at King’s House can be seen in the following:

- Assemblies – see the Assemblies Log for both the JD and SD
- School Policies – Pupil Behaviour, Anti-Bullying, Learning Support, Equality and Disability
- The Pupil Code of Conduct
- Schemes of Work – as indicated by the subjects above
- Subject Evidence folders
- School Newsletters – highlighting outings, trips and achievements

SCHEDULE OF POLICY UPDATES

Date	Change	
12/2014 Reviewed again and referred to FGB for approval		
12/2014	Replace the heading "School Councils" with "Pupil Voice".	Page 3 – now Annex A
	It was agreed to focus on how the School consults with pupils in an age-appropriate way, through assemblies, well-being surveys, PHSEE, form-time and other channels.	Page 3 – now Annex A
04/2014 Changes made following review by A Churcher and reviewed by SMT		
05/2015	Changing of PHSEE to documents	
	Addition of SMSC statement within the PSHEE policy.	Page 3
	Addition of the line about a pupil voice folder being collated	Page 11
	Addition on inclusion of economic education	Page 5
06/2015	Inclusion of the school's statement on SMSC including the promotion of fundamental British values as Annex B	Page 13
01/18	In light of ISI inspections pupil voice folder updated in Annex A	Page 11/12
	Update of schemes of work across all departments.	6-9
2/18	Added in SMSC for PE	18-19
12/2018	Added statement non-segregated, non-gender-specific careers advice.	Page 2
